Maroš Chmeľ
React Developer

SUMMARY

I am a self-taught react front end developer based in Vranov nad Topľou, Slovakia. While originally going to University studying social work, I started coding on suggestion of my brother in Autumn 2022 and from that point on, I was hooked. Since then I have been learning everyday. I have built some projects to showcase my work. I am looking for positions as intern or junior react developer. I am always fully focused about the work that I do, excited to learn new technologies and would love to chat about how I might be able to help the work that you do!

TECHNICAL SKILLS

Languages:
JavaScript
Typescript
CSS
HTML
Framework/Library:
React.js
Tools:
Git Hub
ChatGPT
VS Code

PROFESSIONAL EXPERIENCE

No experience in front end   Present - Present

EDUCATION

Social Work   Sep '13 - Jun '18
UNIPO - University of Prešov   Prešov, Slovakia

it is not school with IT background, but i've improved my communication skills which as i believe should help me in work in team

PROJECTS

- **Gamer Store App (**Typescript, Material-UI, ContextAPI, Axios, ChartJS, React-Hook-Form, React-Multicarousel)
- Gamer store app inspired in instant-gaming web app. Purpose of this app is to provide digital keys for games to users. It contains all functions gamer store app should have. Although this app is pure front end, log in is implemented, where data are stored in local storage. User can filter games and add them to cart or wishlist in profile.
- **Gallery App (**Typescript, Material-UI, Redux-Toolkit, Axios)
- Gallery app made with typescript and redux toolkit. Purpose of this app is to allow user search for pictures and display them in modal. My goal was to practice work with API, because pictures are fetched from unsplashAPI.
- **Ebolg Blog App (**Typescript, Bootstrap, Firebase, Axios)
- Blog for every traveller. Purpose of this app is to share info about place from places all over the Globe. I used help of ChatGPT to make it work with firebase, where data are stored. App contains Login/Register, Add Blog, Blogs, and comment sections.
